delivers secure & innovative  
customer-centric solutions.**

**online**  
business systems

We recognize that businesses today are under pressure to transform in order to remain relevant - at the same time, we see unprecedented opportunity to innovate and achieve incredible things never seen before - securely.

We are Your Digital Transformation and Cybersecurity Consulting Partner.

We are a trusted partner for some of North America's leading companies in:

**EDUCATION**

**INSURANCE**

**FINANCE**

**AGRIBUSINESS**

“ *I have 48 information technology vendors and just one partner, and that is Online.*

James Nick, Former Director PMO - Manitoba eHealth

## SALESFORCE PARTNERSHIP

“*Online’s collaboration was key to moving this project forward; the team did whatever was necessary. This project is a great example of partnership and we could not have done this without Online.*

- Program Manager, City of Edmonton

INTEGRATION

Online combines the best technology, business, and security practices, to lead Clients through the transformation process. Onliners embrace our Clients’ vision and the challenge of creating something new, and then push the boundaries to deliver.

We not only address information technology and security, but processes and people as well. It is this holistic approach that truly adds value, ensuring our Clients meet their goals.
