Cloud Advisory Services

Cloud Compliance and Assessment Services

Cloud Technical Services

Cloud Advisory Services

The decision to adopt the Cloud goes beyond determining what platform to use, or what solutions to deploy there. A key component to realizing the benefits of Cloud is make security a priority consideration from every stage. Our RSP Cloud Advisory Services considers your security, privacy and performance goals, and then works with your teams to ensure an optimal implementation. This includes:

> Solution Selection

> Migration Strategy and Planning

> Cloud Security Planning and Advisory

> Cloud Design/ Redesign / Advisory

> Cloud Security Solution Selection

> Cloud Integration and Deployment Planning

> Capacity and Continuity Planning

Results. Guaranteed.

Cloud Compliance and Assessment Services

Online's Cloud Compliance and Assessment services provide organizations with an in-depth review of existing cybersecurity posture through a comprehensive analysis of threats and vulnerabilities, regulatory compliance requirements, and, most importantly, business risk in Cloud Environments.

Through Cloud Readiness Assessments we work with you to identify gaps and remediation strategies to ensure alignment with the requisite compliance frameworks.

The Online team works as an extension of your team to execute remediation activities that strengthen your security posture considering all aspects of your Cloud security program and overall organization.

> Custom / multi-compliance solutions

> Readiness Assessments and Remediation Roadmaps

> CSA, PCI DSS, HIPAA, and FedRAMP compliance assessments

> Enterprise and Third-Party Risk Assessments

> Data Inventory and Data Flow Mapping

> Security Training and Knowledge Transfer

Cloud Technical Services/Testing

Online's Cloud Technical Security Services supports technical security testing / verification for cloud service environments.

With over 50% of our testing and verification engagements done against pure cloud and hybrid cloud environments, including AWS, Azure, GCP etc, our proven testing methods provide a clear understanding of the overall technical posture, ensuring your cloud environment remains secure. Online's RSP Cloud Technical Services include:

> Network Penetration & Segmentation Testing

> Web Application/API/Mobile App Testing

> Red Teaming / Social Engineering

> Secure Code Analysis & Review
